INTERNATIONAL UNIVERSITY OF KYRGYZSTAN
MESSAGE FROM RECTOR

Dear applicants!

We are inviting you to our university to get one of the most interesting and human professions – the profession of doctor.

Our medical school has considerable experience in training of doctors for foreign countries and employs the best specialists of Kyrgyz Republic.

Strong intellectual potential, close cooperation with leading medical institutions, the use of modern technologies, and individual approach to each student, all these ensure high quality of training and future professional achievements of our graduates.

Training in our medical school is conducted in line with up-to-date standards applied in European countries. We are offering our students the training programs best fit for their home country needs or places where they want to practice medicine in future.

We apply training techniques that make it possible for students to develop problem-solving skills, learn how to get information independently and improve abilities to assess new information critically. We are confident that wide access to clinical settings, work with patients, and participation in surgeries will help students develop good clinical skills and human approach. We pay particular attention to personal growth of students applying individual approach to each of them and help them solve all their problems as to training or accommodation, privacy and security.

Once you become our school student you will be a part of us as we are personally responsible for each one of you, and when you leave we want you to remember us and stay in touch.

Sincerely,

Rector of International School of Medicine,

M.D., Ph.D., Professor

Chyngyshpaev Sh.M.
